

## TERMET SWK 120

The TERMET SWK 120 storage tank is one of the most modern solutions for supplying hot water to single-family and multi-family houses as well as public utility buildings with several hot water draw-off points. They are characterized by small dimensions, which allows for easy installation of the storage tank, e.g. in a low boiler room.

- compatible with condensing system boilers:
  - ECOCONDENS GOLD PLUS-20
  - ECOCONDENS GOLD PLUS-25
  - ECOCONDENS GOLD PLUS-32
  - ECOCONDENS NEX-24
  - ECOCONDENS NEX-28
  - ECOCONDENS NEX-32
  - ECOCONDENS SLIM-20
  - ECOCONDENS SILVER-20
  - ECOCONDENS SILVER-25
  - ECOCONDENS SILVER-35
  - SILVER PRO-20
  - SILVER PRO-25
  - SILVER PRO-35
  - ECOCONDENS CRYSTAL II PLUS-20
  - ECOCONDENS CRYSTAL II PLUS-25
  - ECOCONDENS CRYSTAL II PLUS-35
  - ECOCONDENS CRYSTAL PLUS-50
- power supply from above
- durable and safe to use
- easy to use and assemble
- housing shell made of steel sheet covered with white powder paint
- storage tank made of steel sheet covered inside with a layer of special ceramic enamel protecting against corrosion and ensuring good quality of heated water
- built-in magnesium anode to prevent tank corrosion
