

EASY REMOTE

EASY REMOTE controller has been designed to guarantee perfect temperature control at any time of the day while allowing remote operation of the boiler settings. The device has a large LCD display which allows you to view and change settings at any time. After installation it is immediately ready for operation thanks to the built-in standard programs. The controller can be modified according to the user's needs.

- accurate error diagnostics
- communication with the boiler (allows to change boiler parameters without approaching it)
- clear and easy to use LCD display
- possibility to set the programs according to the user's requirements: weekly heating program, weekly hot water heating program,
- weather function,
- allows for deleting boiler operation errors
- power supply by connecting to boiler

parameters

Value

Setting range of room temperature	5-30 °C
Supply voltage	from boiler
Temperature sinch	0,1 °C
Operating temperature	-10 ÷ + 50 °C
Dimensions	118 x 85 x 30 mm
Display	liquid crystal display
Temperature levels	2
Hysteresis	-1,0 ÷ 1,0 °C
